IF REQUIRED.						
NEW ISSUE OF SHARES.						

From 1955, the purchases have increased in the same proportion as the sales, while the total expenditure from all sources show the marvellous increase of £150,000 over the previous year.

The latest balance sheet shows a credit of Profit and Loss Account of June 30th last of £44,664. Out of this the directors carried the sum of £4943 to the Reserve Fund. The balance of £39,721 was added to the Reserve in the society's business, however, because of the necessity for an increase of the capital, which, with the magnitude of the society's operations, was deemed to be essential. The authorised capital of the society is £20,000. The £39,721 is the balance of the authorised capital, viz. £20,000 less £1,279 of shares and £18,442 of debentures.

The directors now consider it advisable to place the £39,721 in the open market, and to issue £20,000 of shares at £10s per share. In consideration of the premium of £10s per share, the corporation will be able to pay the open market value of the shares at £10s per share, and the £10s per share will be paid to the shareholders.

The fact that it is not intended to call up more than half the amount of the new shares at present, the board has decided to offer the new shares at a 10% share premium, i.e. should it be necessary to call up more than half the new shares in the future to pay the share premium, the shareholders will be required to pay an additional premium. The shareholders who have already paid the share premium will receive the same rate of dividend as the paid-up shares, while for the year ending June 30, 1936, the shareholders who have not yet paid the share premium will be allowed the privilege of doing so. This new issue will be offered at a 10% share premium, and the shareholders who have not yet paid the share premium will be allowed the shares fully paid up at 1 percent in advance. The shareholders who have not yet paid the share premium will be allowed to deposit, according to the current rates for fixed deposits, at 8 percent per annum. The total interest for fixed deposits, at 8 percent per annum, will be \$100,000. The total interest for fixed deposits, at 8 percent per annum, will be \$100,000. The total interest for fixed deposits, at 8 percent per annum, will be \$100,000.

little over 10 per cent. per annum. But it is not compulsory for the whole of the £12 10s. per share to be paid down at once upon payment of the premium of £2 10s. per share as a deposit. An investor may secure the number of shares he wishes to take, and pay the amount in calls of £2 10s. per share per month, until he has paid the whole of the £12 10s. at any time.

Copies of last report and balance sheet, application form for new shares, and all other information respecting the Society may be obtained on application at the office, 25, Market-street.

E. W. FOXALL, *Managing*
